**STRIVING TOWARDS
EXCELLENCE**

Principal Speaks

DWPS has a clear vision and mission objective. We are unconditionally committed to providing the best possible educational program to our students. We believe that there are numerous opportunities, both within our curriculum and through extracurricular activities for our students to gain the skills that will allow them to be successful. We offer the students with skills and opportunities that create in them the power to introspect and become compassionate in their lives. We believe that education is an effective medium of social transformation.

DWPS cares for the individual development of each and every student. Our teachers strive to teach not only academic programs but also life skills needed for students' self-development with highly resourceful faculty.

Through our comprehensive curriculum, we strive to inspire for learning, encourage critical thinking, and promote creativity. We aim to equip our students with the necessary skills, knowledge, and values to become responsible global citizens and lifelong learners.

Beyond academics, we offer a wide range of extracurricular activities, clubs, and sports programs to cater to the diverse interests and talents of our students. These opportunities not only enhance their personal development but also foster leadership and sportsmanship.

Warm Regards,

Dr. Neel Kamal Singh

Principal

Our Approach towards every child

A LITTLE COMPASSION

FOR OTHERS

The ability to feel for others is far more important than academics and needs to be nurtured from a young age. By infusing and integrating empathy and kindness into the curriculum, the school makes these values a part of each child's identity.

A LITTLE CREATIVITY

TO DREAM

Creativity is nourished in the school—with challenges and goals that excite students and drive them to dream big, with the freedom that enables them to push the boundaries and be bold and, with the support that gives them the courage to correct their mistakes and continue experimenting.

A LITTLE CONFIDENCE

TO FACE THE WORLD

Confidence is not the lack of fear but the ability to give every opportunity your best shot. The school lays down the foundation for children to make the right choices and conquer challenges to become the truest versions of themselves.

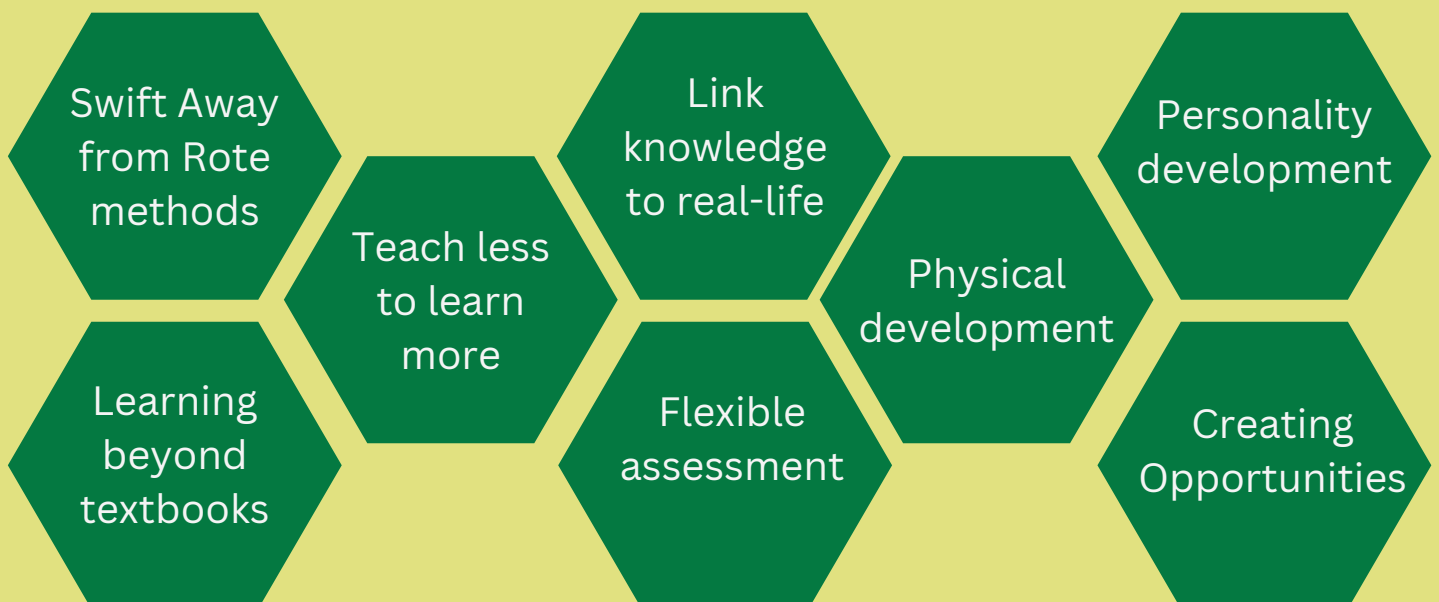

THE DWPS SCHOOL

CURRICULUM

The Curriculum of Delhi World Foundation adheres to the National Curriculum Framework 2005 (NCF 2005) and the CBSE curriculum and shall follow to the core the NEP 2020. The Foundation believes that the class room experiences of children are to be organized in a manner that permits them to construct knowledge in consonance with the child's nature and context, thus providing equal learning opportunities for all children. Teaching aims at enhancing the child's innate desire and acumen to learn. Activity is at the heart of children's attempt to make sense of the world around them.

Therefore, every resource is deployed in a child-centric manner to enable them to express themselves, handle objects, explore their natural and social milieu, and to grow up in good health.

GUIDING PRINCIPLES

A child's mind is intensely curious. They dream big and translate those dreams into practical applications. minds cannot be specifically bound to science, technology, language or arts, but integrate all aspects of human expression and discipline to think bigger and aim higher.

School Infrastructure

Smart Classrooms

To facilitate access to global learning in E-classrooms with Interactive Panels, Delhi World Public School has taken a step forward to create virtual classrooms with e-modules and a two-way approach for effective teaching and communication.

Physics Lab

Provides students with the opportunity to explore and understand the fundamental principles of physics through hands-on experiments and practical applications. Equipped with advanced tools and apparatus, the lab fosters an engaging environment where students can apply theoretical knowledge to real-world scenarios.

Chemistry Lab

Dynamic space where students delve into the fascinating world of chemical reactions, compounds, and processes. Designed with safety and innovation in mind

Biology Lab

Offers students an immersive environment to explore the wonders of life sciences through hands-on experiments and observations. Equipped with modern tools, microscopes, and biological specimens, the lab provides an ideal setting for studying the intricacies of living organisms, their structures, functions, and interactions.

Social Science Lab

Has equipment, apparatus and materials required for each subject, such as maps, globe, ethnic artefacts, etc. to promote practical as well as theoretical learning.

It provides a work space for students and teachers for interactive activities such as role playing, visualisation, competing/cooperating, problem solving or focus group discussions.

Composite Science Lab

The lab encourages collaboration and innovation, helping students grasp the interconnectedness of scientific disciplines while laying a strong foundation for further studies in STEM fields.

Math Lab

The Math Lab allows students to explore mathematical concepts via games, puzzles and other modern teaching aids. In addition to teaching in the lab, students are encouraged to use lab facilities on their own to inculcate in them a spirit of discovery and invention.

Computer lab

Modern and dynamic hub for technological learning and innovation. Equipped with high-speed internet, advanced computers, and the latest software, the lab provides students with the tools they need to excel in an increasingly digital world.

Robotics Lab

Our Robotics Laboratory is a cutting-edge facility designed to ignite innovation and creativity in the field of robotics and automation.

Through hands-on projects and collaborative activities, students explore concepts such as mechanics, electronics, coding, and artificial intelligence. The lab encourages problem-solving, critical thinking, and teamwork, enabling students to develop skills that are essential for success in the modern tech-driven world.

Music

Music Program is a vibrant and integral part of our commitment to holistic education, fostering creativity, expression, and cultural appreciation among students. With a well-equipped music room and a wide range of instruments, students are encouraged to explore their musical talents and develop skills in both vocal and instrumental music.

From classical to contemporary styles, the program offers diverse opportunities to learn and perform.

Dance

Dance Program is a dynamic platform for students to explore the art of movement and expression. The program offers training in a variety of dance forms, including classical, contemporary, folk, and modern styles. Through regular practice, performances, and participation in cultural events, competitions, and festivals, students gain the opportunity to showcase their talent and celebrate the richness of dance as a global art form.

Art and Craft

Art & Craft Program is designed to nurture creativity, imagination, and self-expression in students. Students engage in a wide range of activities, including drawing, painting, origami, and craftwork using diverse materials. These hands-on experiences help them enhance their fine motor skills, visual thinking, and problem-solving abilities.

Library

The library's well-organized and serene environment provides the perfect setting for reading, research, and intellectual growth. Students have access to a variety of genres, including fiction, non-fiction, reference materials, and subject-specific resources that complement their curriculum and ignite curiosity.

Games & Sports

At DWPS, we believe that games and sports are essential components of a child's overall development. Our commitment to fostering a well-rounded, active lifestyle is reflected in our diverse sports programs and state-of-the-art facilities.

Physical fitness and recreation are integrated into the curriculum, offering students a chance to excel in both competitive and recreational activities.

Our expansive playgrounds are equipped for a range of outdoor sports, including Cricket, Football, Tennis, Basketball, and Skating. For indoor enthusiasts, our Games Complex includes facilities for Table Tennis, Squash, Carrom, Chess, and Badminton. Specialized rooms for Aerobics and Yoga offer students the opportunity to develop skills in various disciplines.

We strive to provide an environment that promotes physical health, discipline, and the spirit of sportsmanship, ensuring our students are well-prepared for the challenges of the future.

Educational Visits

At DWPS, we recognize the importance of learning beyond the classroom. Educational visits provide students with valuable opportunities to explore real-world applications of the concepts they learn in school. These trips are thoughtfully planned to complement academic curricula, offering students enriching experiences that broaden their horizons and deepen their understanding.

From visits to museums, historical sites, and scientific research centers to field trips in nature and industry, our educational visits are designed to engage students, spark curiosity, and inspire lifelong learning. These excursions encourage hands-on learning, foster critical thinking, and help students connect theory to practice in a meaningful way.

WE NURTURE THE WHOLE CHILD

Our curriculum, infrastructure, partnerships and policies are geared to ensure that our children are healthy, safe, engaged, supported and continually challenged.

Healthy

Each student understands the importance of health and well-being as a lifelong practice

Safe

Each student learns in an environment that is physically and emotionally safe for students and adults

Challenged

Each student is presented with academic challenges which prepares them for success in a global environment

Whole Child Approach

Engaged

Each student is actively engaged in learning and feels a sense of belonging within the school and larger community

Supported

Each student has access to a personalised learning pathway and is supported by qualified mentors—teachers and parents

Visit and Connect with US

We invite you to experience all that your child will enjoy on our campus. Take a tour, visit the infrastructure. Meet the teachers. Have your queries answered. Get inspired
